

Capability Statement

Riftsoft's core principles are based on building software that is inspired by industry to help industry work better.

We developed the Riftsoft platform for asset and process intensive industries including oil and gas, mining, energy production, manufacturing and logistics to deliver process efficiencies for their operations. We understand first-hand the challenges faced by these industries and have built best-in-class cloud software to help them prosper.

The Riftsoft Vision

Customers are our life blood, everything we develop must provide benefits, so we go to extraordinary lengths to consult with them.

We continually look at new ways of streamline for efficiency, modernise technology and services and improve connectivity.

Remaining agile allows our customers to benefit from our capabilities and spend less time focusing on the technology, and more time using it to become industry leaders.

Our Mission

Riftsoft is committed to being the first choice for industry to turn to for software that helps them be more efficient in what they do. We achieve this by offering:

- ✓ software that address industry challenges
- ✓ software as a service (SaaS) from the cloud
- ✓ tangible value for money with rapid R.O.I
- ✓ deep levels of integration and connectivity
- ✓ access to our capabilities immediately with minimal training
- ✓ high levels of professionalism at every stage

Core Competencies

Riftsoft not only excels in delivering cloud software but also provides that personal touch and can offer completely bespoke solutions and expertise in several technical areas:

- Custom Cloud Development
- Custom SAP Development
- Project Management
- System Architecture
- Microsoft SQL Server
- SAP S/4 HANA

- SAP RICEF
- HANA CDS
- ASP.NET Core
- Oracle & Maximo

About Riftsoft

Riftsoft is a global company and leaders in producing software that automates asset management and document control. We help companies to operate more efficiently and stay compliant in an increasingly challenging environment.

We develop software using ISO 9001:2015 compliance standards for industries sectors such as oil and gas, mining, energy production, manufacturing, and logistics to help them deliver process efficiencies and to become industry leaders.

We understand first-hand the challenges faced by these sectors and have built software that tackles these specific problems. Using our software will help you achieve greater efficiencies, cost savings and compliance to QMS standards.

Riftsoft has sales and support offices located in the United States, Australia, and the United Kingdom. For more information on Riftsoft solutions or to contact a representative near you, please visit www.riftsoft.com
